Total: _____

Additional Information:

Cart Lease includes unlimited usage for one cart at a time to the designated member or dependent on the lease. Only the lessee is able to receive a key for the cart. Cart Lease Dependents must be included in the Family Membership. Dependents can only receive a cart when the primary lessee is not present.

Any passenger not part of the cart lease membership will be charged a rider fee.

This does not include passengers who are part of a family/couple membership with the primary lessee driving. If two separate lessee's are playing together they will be asked to ride together instead of taking two carts. Unless they wish to pay the cart rental fee to ride separately.

Starting 2027 Season - Cart leases will be limited to 18 holes on holiday weekends (Fri, Sat, Sun, Mon). 27 holes on normal weekends.
